VOTE FOR GOOD ROADS.

The Nogales Chamber of Commerce Issues Appeal to Taxpayers.

As a result of a petition circulated throughout the county by the Nogales Chamber of Commerce, which petition over fifty per cent of the property taxpayers signed, the Board of Supervisors has caused to be made a preliminary survey of the county road system, and has set October 23 as the date for the election on the road bond question.

The estimate calls for \$30,400 for the road toward Tucson and \$55,500 for the main road through the eastern part of the county. It would be impossible for double the sum of \$150,000 to construct grade roads throughout the county. However, if the natural roads are properly drained and the worst places constructed permanently, the roads will remain in good condition. Over sixty per cent of the total sum is to be devoted to drainage.

For the road from the river to Washington Camp \$4,250 is provided. \$18,950 is allowed for the road from Patagonia to the San Rafael valley.

\$5,750 is provided for the Harshaw-Duquesne branch.

\$2,100 is allowed for the road from Sonoita north to the county line.

\$6,500 is provided for the Elgin-Canille road.

For the construction of a short road from the Nogales-Tucson highway to the Oro Blanco district \$20,000 is provided.

In conjunction with the war department, Cochise county, the Forest Service and Santa Cruz county, a scenic highway is planned to run from Douglas, Bisbee and Naco through the military reservation, Canille, Canelo Pass, San Rafael Valley, Patagonia to Nogales.

The county is spending annually \$11,000 on our roads. The net gain to roads each year does not exceed \$1,500, after the rains have played havoc with them. This \$150,000 is for the purpose of stopping annual destruction. Once we get our roads properly drained, the reconstruction charge will drop to a very small sum and allow for the proper maintenance of the roads and yet leave something out of the \$11,000 toward interest on the bonds.

The wear and tear on your wagon; the loss of valuable time, the upkeep on your automobile—what you now lose in this way will more than pay your share of the interest and principal on the bonds.

If 500 automobile parties—and there will be several thousand annually—ride through our county—when good roads are provided—and witness the great resources of our county, the money spent in interest will very shortly be returned in increased development of those resources; in the money those visitors spend en route.

Don't vote against the bonds for fear the money will not be properly spent. This is our own job and is going to be put in right.

Don't vote against the bonds on the ground that the county is now over burned. The increased development of the county in the next two years will completely offset the interest charge, when coupled with a decreased maintenance charge.

Don't vote against the bonds because the proposed plan does not include permanent construction of the road in front of your own property. With the annual maintenance charge greatly lowered more funds can be devoted to branch roads. Further if a good road is available a short distance away, you can get somewhere with a big saving of time and wear and tear. Under the present system, there is no hope for the construction of branch roads in the next five years, the money must go on the heavily traveled roads—the main arteries, for we face the condition of not a decent road in the county.
